

Vehicle capacity guide

What size vehicle do you need...

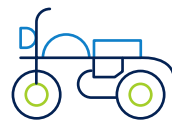

We have created a general guide below as an initial indicator to which size vehicle you may need. All dimensions are approximate and based on empty vehicles. All width dimensions have taken in to account space for wheel arches.

Please note that CitySprint operates various makes and models of vehicles whose dimensions and capacity may differ from those shown below. If you need further guidance for a specific job, please contact your local service centre. For a full list of service centres, please visit our website: citysprint.co.uk/locations
